Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant argued that the 103 rejection on claims 4, 14, and 29 was not proper. Applicant also argued against the finality of the previous office action. Due to a an examiner mistake, the previous office action will not be final, and the applicant will be allotted a chance to respond. Applicant also proposed an amendment to claims 4, 14, and 29 which a positively recited functional limitation appeared to read over the art of record. The examiner further notes that in light of the overturned finality of the action, a complete re-search will be conducted on all claims submitted, including claims with indicated allowable subject matter.
